What did you like best in the LLC?

The staff are superb! Staff members are informative, helpful and accomodating. The quality of the technology is superior to that in the SSSC. The ease of having multiple workstations makes student work very efficient.

LLC staff was very friendly and ready to answers any questions. LLC staff prepared the lab for the teacher and class. The teacher's name and class level were shown on the screen. Sanako and students' resumes were set up, so students were able to start the
conference with the teacher as soon as they arrived. we were able to reserve the lab for
the whole class time.
All the tools offered to the students are great. I liked everything.
I love your assistance to students and professors. I love to come to LLC myself, when
possible.
Staff
My students for Fr. 1 class were required to spend 10 hrs at LLC, plus 10 extra hours for
5% extra credit. They were to practice vocabulary, do HW, watch Epaces videos,
practice for oral tests and record them, watch French movies and write brief reports on
them. I am happy that 80 to 85% of my students met these requirements. I thank all of
you very much for all your assistance.
Huge amount of technical resources and knowledgeable staff.
LLC has provided extra materials for students to learn besides in the class and text
book. And the Passport Rewards program motivates students to come to use LLC more
often.
All of the wonderful resources in learning foreign languages and friendly and helpful lab
workers!

What would you improve in the LLC?
Thank you for your help an support.
The LLC already provides great assistance to students and faculty. Thank you for your
hard work.
Software that would enable the source material (video) to be played on screen while
simultaneously capturing the student work (video). The end product would be the
original source video being played on screen with the video of the student work also on
screen.
I am not sure, what could be done better. I am so happy with your services. If I can
think about anything I will share this with Ms. Peggy Marcy.
Too far away from building 31A. I feel like wasting a lot of time when we move one place
to another place.
